

Careers Guidance and Information Resources

For parents, carers, families, professionals, and pupils, the following websites provide reliable and informative guidance on a broad range of career sectors, pathways, and related topics. These resources include comprehensive information on apprenticeships, employment opportunities, and Labour Market Information (LMI) to support informed decision-making about future education, training, and career choices.

Pupils may find the Leicester City Council jobs website particularly useful where they can; researching local employers, exploring current job vacancies, and gaining a deeper understanding of their post-16 pathways.
